

Bury Farm Bakery

The Welch family run Bury Farm in Nuthampstead in Hertfordshire growing mainly arable crops in rotation, including wheat, oil-seed rape, oats, barley and field beans

They have been making delicious cakes since converting a stable block 18 years ago. The bakery produces over 70 different products at any one time, most of which are suitable for vegetarians and include Gluten Free and Egg free options, which are becoming increasingly popular.

The bakery has built up a range of cakes, biscuits and tarts from long established recipes, adapted for modern tastes. Bakery staff skillfully bake handmade products from quality ingredients and do not use any extra additives or preservatives. Loaf and sandwich cakes are available in over 25 different varieties including fudge cakes, carrot, walnut and gingerbread. Bakewell Tarts and Apple Fruit Pies are available in 3 sizes.

The full range includes traybakes, slices, scones and biscuits plus seasonal products at Christmas, Easter and other times.

They can also bake wonderful celebration cakes to order.

They deliver to Lathcoats every Wednesday.
